Quincy Humane Society has seen a significant increase in adoption applicants wanting to adopt our animals and have them one of the three types of support animals...

emotional support dogs, therapy dogs, and service dogs.

We wanted to educate ourselves, as well as educate the community and provide brief explanations and benefits to each program!

The difference between services dogs, therapy dogs, and emotional support animals is not easy to do unless one is familiar with the requirements of each. While there are varying distinctions between these three different canine jobs, they all come with some sort of necessity for the person who is looking to adopt.

Fostering for Quincy Humane Society

Quincy Humane Society has a volunteer based foster care program where families in the Adams

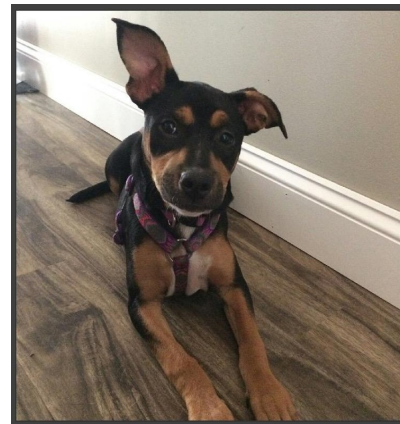

County area open their hearts and homes to one or more of our shelter animals. These foster opportunities provide young and old, injured, sick, or under socialized animals a chance to grow or heal before finding, what we call, a “FUR-ever” home!

We have animals that come in to our facility that are under socialized. While our staff cares for our animals, and we have volunteers that come in to walk the dogs, take them out for playtime, and to give them that special “T.L.C.” that they may be missing, sometimes the socialization that they receive here at the shelter isn’t quite enough.

We have two dogs that have come into our care that needed more one on one socialization that we felt that our fosters would be able to work with.

Meet Cher and Chloe

Cher (pictured right) is a 9 month old Terrier Mix, who arrived at our shelter in the middle of April. Cher came on a transport and upon arrival, it was quite evident that this sweet little girl was going to need some one on one love and attention. She was completely terrified and we knew that we needed to find an alternative place for her to stay.

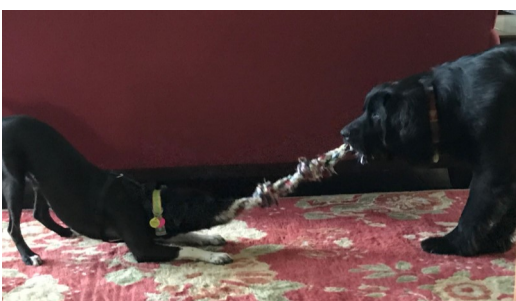

Chloe (pictured left) is a 1 year old Retriever/Labrador Mix, who arrived at Quincy Humane Society through an American Society of the Prevention of Cruelty to Animals (also known as the ASPCA). When Chloe arrived she was under socialized but remained in the kennel for a little over a week. While minimal progress had been made, we felt it best to place her in a foster home for socialization.

When Cher and Chloe came into our facility, we knew that it was in their best interest to place them in homes where they would not only receive love, care, attention, and some much needed T.L.C, they were also going to need a canine companion for emotional support and guidance.

While many of our foster families have a household pet, it is not required; however, we do find that for under socialized animals in need of foster care, these household animals really do help to reassure these animals that love, attention and care, are all how a dog's life should be.

Fostering is a wonderful experience for individuals and families! As an approved foster family, our volunteers receive emails providing a brief description of the animals needed foster homes. When a foster family is available to take one of our animals in, they contact us to make arrangements.

To date, Cher and Chloe had both found the perfect “FUR-ever” home! They continue to make great strides and they both happened to find homes where there are canine companions that they can learn from as they continue to adjust to their new FUR-ever homes!

Pictured (left) is Chloe playing with her new furry sibling, who was also adopted from Quincy Humane Society.

Pictured (right) is Cher with her new mom, dad, and furry sibling right after Cher's adoption!

A Special Thank You

Ellington School: A very special thank you goes out to all of the students, faculty, and staff at Ellington school who collected supplies for the animals here at Quincy Humane Society. They helped us stock up on the much needed items that we use for our animals every day and are extremely grateful for all of the variety of items that everyone collected. We greatly appreciate your efforts and thank you for thinking of our animals.

Imo's Pizza of Quincy: Thank you Imo's for organizing the first ever "Dog Day's Pizza Special"! We always look for fun ways to involve the members of the community and we greatly appreciate your support for our organization!

Shottenkirk Toyota and Bathe to Save:

A HUGE thank you for thinking of Quincy Humane Society when planning fundraising efforts alongside Bathe to Save, a national tour that brings HydroDog's traditional grooming service and helps us to raise awareness of the benefits of animal adoption! We enjoyed having our adoption event in conjunction with this event and are pleased to announce that we received over \$500 dollars! We want to thank the member of the community who brought their animals in for a groom and to Shottenkirk Toyota for their continued support!

Quincy Humane Society Fosters: Thank you for opening up your homes to some of our furry friends that come in throughout the year. Whether the foster opportunity is 10 days or even a few months, all of your help is greatly appreciated by all! Without your love, generosity, and support of our organization mean so much to us! Thank you!

BH Java: Thank you for thinking of the animals at Quincy Humane Society during the month of July! Thanks to everyone who stopped by and donated money to the tip jar, BH Java, located at Blessing Hospital, presented us with a \$239.10 donation that comes back to helping our animals! We appreciate your kindness and generosity and thank you for your support.

Thank you to our Quincy Humane Society supporters, who support us throughout the year with supplies needed for animals here at the shelter, animals in our foster care program, monetary donations, support with fundraising efforts, and time spent helping out with things at our facility. Your continued support is greatly appreciated.
